About Geoscience & Remote Sensing Society: The IEEE GRSS Chapter under IEEE Kolkata Section, the second GRSS Chapter in India, was formed on September 19, 2012. The activities of GRSS community have grown significantly in India in recent years in view of growing opportunities in the areas of remote sensing, earth sciences, satellite systems, communication network and information technology which are supported from various Government organizations and academic institutions. The main aim of the Kolkata Chapter is to bring together academicians professional, researchers and students on a common platform for interaction, collaboration and exposition through holding lectures, seminars and workshops at different places under the purview of IEEE Kolkata Section.

About IEEE MSIT Student Branch: The IEEE MSIT Student Branch and IEEE MSIT EDS SBC were formed on July 28th, 2014 to provide the opportunity to meet and learn from fellow students, as well as faculty members and professionals in the field. Two IEEE EDS DL talks and one IEEE EDS technical talk have been organized by the Student Branch over the past three months. Few programs which we would like to organize are mainly participation in regional conferences, workshops and competitions; development of leadership, interpersonal and team building skills; participation in awards, scholarships and project/design programs and student paper contests; establishment of a Student Branch Library with IEEE's publications ; access IEEE online services and resources establish a web site in next year.
